BEARINGS FOR YOUR FUTURE

Stützrollen / Track Roller

BEARINGS FOR YOUR FUTURE

Zen Ball Bearings are manufactured to the highest quality for standard and non-standard applications. Our technical department can modify any non-standard bearings to your specific requirements, regardless of quantity.

Apart from our extensive miniature ball bearing range of more than 1000 different types, ranging from 1-10 mm bore (Including inch dimensions), our range also includes Thin section, Three part thrust, Popular metric and any kind of non standard bearing. We are able to design bearings according to your requirements using new materials like ceramic or special steels for applications in Industry, Medicine, Chemistry and Food Processing.

Our technical department can modify any non-standard bearings to your specific requirements, even for small quantities.

For any items not listed in our catalogue, please contact our experienced sales team.

Zen Ball Bearings Shanghai has been awarded the German ISO TUV Rheinland certification for inspection of ZEN products.

This certification is the highest standard a business in our industry can achieve. It is internationally recognised as a guarantee of quality, customer focus and continual improvement.

The suffix 'X' indicates a cylindrical outside surface, e.g. KR16X.

The basic load ratings 'C' and 'Cow' apply if the bearing out ring (with cylindrical outside surface) is mounted in a housing bore. When used as a track roller, the load ratings Cw and Cow apply

For oil lubrication, the speed can be increased by approximately 30%, except for sealed executions

NUKRE 35 B=31.5; C=1.8; D=24
 NUKRE 40 B=35.5; C=1.8; D=26"

Lubrication hole is in the end face at the ribbed end of the stud only.
